the Commission is confident that the policy will encourage the development of these services and will enhance the variety and broaden the scope of the Canadian broadcasting system for all Canadians" said CRTC Chairman André Bureau.

"The Commission was encouraged by the very positive contribution of all parties and the depth of the discussion at these hearings. The spirit of cooperation between all levels of the public and private sector was of great assistance in the Commission's understanding and appreciation of the issues involved. In this regard, the Commission acknowledges the participation and support of the Honourable Jack Murta, Minister of State for Multiculturalism, to the success of this consultation".

On October 1 1984, the Commission called for public comments on "A Proposal for an Ethnic Broadcasting Policy for Canada". This call was in response to a growing demand to increase ethnic broadcasting services, the use of new communications technologies, the scarcity of broadcast frequencies, the limited channel capacity of some cable systems, and the evolving nature of the Canadian broadcasting system. Further to the call the Commission held regional public hearings in Vancouver, the National Capital Region and Toronto on 12, 19 and 26 March respectively. The Commission received submissions from 107 parties of whom 57 appeared at the hearings.
